Model combat

Model Combat is the story of a crazed assassin willing to do anything to please his wife; so, with her suggestion, he organizes a tournament forcing models to fight to the death so they won't interfere with his wife's chances of becoming Florida's next top model. The fights are streamed globally throughout Pay-Per-View and viewers are encouraged to place bets. Who will win this coveted tournament using the art of war? How far will they go to be the best?

We also produce magazines to help promote Model Combat and these can be found here on MagCloud.

NOW A MAJOR MOTION PICTURE

When you think you are ready to dive into the content itself, Model Combat is available in two official books:

A Definitive History book detailing how the book came to be:

For years I had been a fan of martial arts tournament films. I started deisgning my own character concepts and designs as far back as 1995. For almost two decades, despite completing several short scripts, I struggled to complete a feature film script. For almost two decades I remained uninspired... until I moved to Florida in 2009. I would take up working as a backstage manager for local MMA promotions while serving as president for the local film club I founded in 2011 where I would learn and observe the fighters and ring girls. Using input I had gathered from my film club and the mma promotions I finally found my inspiration. I started model photography in 2013 to establish a character study of models and began drafting my first treatment script for what was originally Model Fight before it became a finished screenplay Model Combat: Bitch Fight and a finalized shooting script, Model Combat in 2014, before becoming adapted into the beloved film to what is now know today as Girl Blood Sport.

But this is just a small piece of history about this project. In this book you'll gain valuable insight into what were my inspirations and influences throughout my life that would eventually lead to me writing this book and the impact the motion picture had made to the world of horror and exploitation. You'll learn to separate fact from fiction through my detailed accounts and research into the human psyche and examine how the human condition is played out. This book also includes the original published draft of Model Combat: Bitch Fight from 2014 as well as a reference sheet to your favorite fights and fatalities. An appendix with additional information has been included. This is the definitive history and a gift to my fans world-wide.

#4 features the first model for wskel.com, the entity that produced Model Combat. While she did not photograph for Model Combat, her personality inspired the Rachel character. L'ART DE LA MORT

DVD Product Features Include:

- Text-less Artwork (Blu-ray Disc Only)
- Mini-Poster
- 45 minutes,
- sideshow of gory photos set to music
- For humour

Experience an intense, erotic adventure full of depravity and macabre in this extreme, art cinema exhibit of deranged murder and bazaar of disturbing, grotesque and gore-riddled display of bold, shocking, and controversial madness set to an atmosphere of utter darkness and accompanied with an industrial sounding score. Witness live before your eyes as the vampire seductress seduces you and lures you to your demise where your body parts become her toys as she feasts and dines on her aborted zombie infant, bathing in its blood and your gore, before counting the money you paid her for this sordid affair of twisted romance before she delivers herself from evil through her danse of the macabre and bizarre, self-mutilating suicide death ritual. Do you dare join this beautiful, young Latina seductress?

Note: This is an artist's portfolio with simulated acts. No one was harmed or killed during this production.

See Bitch-Fight.com to find out how you can get the DVD for FREE!!!! (Pshh… it's the only way)

SEE THE MADNESS AS IT WAS INTENDED

Note: The books are listed sideways digitally because they were meant to be printed and used as a portfolio flip book.

You may be asking yourself – What the Fuck!? as you look through this series. Inspired by some of the works seen by Jaden Starr, wskel.com was set out to imitate some of these works he seen and what is called gore fetish, or as wskel.com called it, gore-erotica.

Jaden was let lose to do a lot of her own thing and deliver a performance art like no other, using her experience in gore, horror, fetish, and exotic dancing to create one hell of a shoot.

Throughout this series you will encounter perhaps the most controversial - and until now – locked up imagery, hidden away very deep inside the wskel.com vault for years.

Do enjoy them, but not too much you sick, twisted fuck!

This portfolio is available as 8 different flip books that preserves the artists' intended aspect ratio for each photo. Following the exhibit fans may enjoy two poster books, each containing over 40 double-sided posters featuring the best in the performance art of jaden starr.

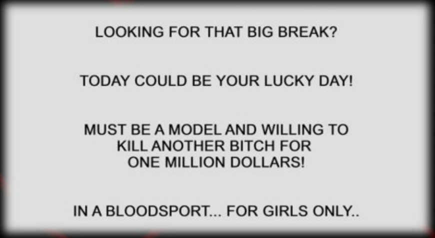
GIRL BLOOD SPORT: WHAT TO EXPECT

The feature film, *Girl Blood Sport* presents itself as a cautionary tale about the dangers posed in the freelance modeling world. It accurately reflects the modern dilemna through the use of the dangerous technology known as social media, which has been responsible for luring many girls to their deaths and demise throughout the world. It is the hope by watching *Girl Blood Sport* models understand the dangers and risks associated with freelance modeling and the many scams and dangers facing them.

An ad is posted to social media promising fame-seeking, attention-deprived hungry models a prize if they kill each other.



LOOKING FOR THAT BIG BREAK?

TODAY COULD BE YOUR LUCKY DAY!

MUST BE A MODEL AND WILLING TO
KILL ANOTHER BITCH FOR
ONE MILLION DOLLARS!

IN A BLOODSPORT... FOR GIRLS ONLY..

We are introduced to many of the fighters and cage girls who accepted Rachel's social media challenge, including princess warrior Becca Chanay and the bubbly Lindsey McComb.

BECCA
CHANAY

LINDSEY
MCCOMB

Lexi Roth, a devout feminist with a mean streak, takes the lead immediately and starts off *Girl Blood Sport* by vowing to destroy any girl who threatens her chance at winning the prize.

All Hell breaks loose after this as the fights commence, promising to be an ultimate bloodbath slaughter. They say modeling is a cut throat industry… well in *Girl Blood Sport* it becomes the industry of death and survival of the fittest!

ABOUT THE FIGHTS

The film depicts brutal fights to the death inside a barbaric cage featuring a stellar female cast.

Army veteran, Brandi Michelle, delivers a deadly knee to emo girl, Brianna Culp, shattering her ribs.

Princess Becca is on the receiving end of a vicious camel clutch as barb-wire rips through her face, while the sadist Lindsey McComb smiles away.

Sexy but deadly feminist Lexi Roth rips the angelic face of her opponent, Amanda Dicapo, without mercy.

Sweet and innocent Candy Glam stands armed and ready to eliminate a fellow assassin for the ultimate million-dollar prize!

Look throughout the magazine for more hints on what to expect from Girl Blood Sport!

AND NOW… THE CAGE GIRLS!

As homage to the original concept from 2013, bikini-clad fighters and topless, near-nude cage girls are also introduced. Kitten Chelsi serves as the main cage girl and holds nothing back as she taunts and terrorizes the other cage girls while proudly encourages the fighters to kill each other – all whom stand in her way of taking the spotlight as the best cage girl for *Girl Blood Sport*! Fans will be ecstatic to know that they will see Kitten Chelsi in action as a sweat-drenched, bikini-clad fighter as well!

Other cage girls were provided by horror model group GOREgous Girls and shot on location at the Haunted Hydro attraction in Fremont, Ohio during the summer of 2017 and intercut with existing 2016 and 2017 footage shot in Bartlett, Ohio.

THE BRUTAL CAGE OF DEATH

Lindsey McComb

Why do women fight?

Women fight because we hold grudges, we're strong-willed & if you tell us we can't something we'll prove you wrong and do it anyway. We're the dominant species.

Final thoughts?

Check out girl blood sport! it's gonna be awesome! You guys definitely wanna see it and I'm in it! I eat people's hearts out... and yeh, I'm fucking crazy! I wanna thank kelcey for this amazing experience!

THE "DIABOLICAL STRUCTURE OF PAIN" WAS REALLY A CHEAP 10 FOOT BY 10 FOOT DOG KENNEL. THE DOG KENNEL WAS NEVER STABILIZED SO NO MAJOR STUNTS COULD BE DONE DUE TO THE UNDURABILITY OF THE STRUCTURE WHICH WAS DESIGNED MAINLY FOR LOOKS ANYWAY.

THE SINISTER BARBARIC ENCLOSURE BEGAN AS A SERIES OF INTERCONNECTED GALVINIZED STEEL POSTS.

THE POSTS WERE SPRAYPAINTED JET BLACK TO EMPHASIZE A DEMONIC YET GLOSSY LOOK. THIS THICK LAYER OF GLOSSY BLACK GAVE THE CAGE AN EDGIER, COOL LOOK THAT APPEALLED TO THE MILLENNIAL GENERATION YET THE CAGE WAS NEVER MEANT TO BE WELCOMING AND ALWAYS HORRIFYING.

THE FENCING ITSELF WAS ROLL-PAINTED WITH A DARKER SHADE OF PINK TO GIVE IT A GRUNGEY, FEMINIST VIBE. IT ADDED TO THE ILLUSION OF BEING AN ALLURING STRUCTURE OF DEMONIC AND SINISTER FORCES... ALMOST AS IF IT WERE ITS OWN BREATHING ANIMAL.

INTERVIEW WITH KITTEN CHELSI

Chelsi sat down with Kelcey in the summer of 2017 to conduct an interview about her experience with *Girl Blood Sport*. Kelcey's questions appear in red while Chelsi's responses are in white.

Introduce yourself...
Hi I'm Chelsi, I'm one of the ring girls, I reside from Cambridge, Ohio and I am here to show the competition I am here to kick ass!

What do you think about the other girls? Do you feel like they're competition?
Competition? Please! I'm number one and I'll always be #1!

How do you describe your experience with *Girl Blood Sport*?
It was an amazing experience... but all these bitches out here are trying to be me, which will never happen!

How did you feel sitting back and watching all these other girls taking your spotlight?
All these bitches out here wanna be me, bitch ain't gonna happen, there's only one of me and you'll never get this throne! Nobody will EVER get my throne!

What did you think about your experience with the early book cover from 2016?
I loved it! It was a wonderful experience. It broadened my horizon in our modeling career that I'm trying to expand. It has actually helped me especially for Kelcey being the first photographer for me and helped me to expand my spectrum being a business major.

How did it help you get more work?
It's helped me alot because it's not your typical photo shoot. It's more videography and different, in a good way, and it's a very exciting vision to carry out from the artist's eye.

What are your plans for *Girl Blood Sport*?
My plans are to be the best ring girl they ever have - but don't get it twisted, I can throw my hands and mow down any bitch that gets in my way!

Let's see if Chelsi can backup her statements when we see Chelsi fight in a bikini and intimidate the other cage girls in *Girl Blood Sport.* Available soon from GirlBloodSport.com!
